

Sir,

I send herewith my observations on the draft Labour Code as under:

Section/ Sub-section/ Clause/ Proviso of the Code	Issue / Problem identified in the clause	Proposed Change / correction that should be made	Reason for proposed change
1	2	3	4
2.12	<b><i>Commission and piece rate worker:</i></b>  &  <b><i>Monthly income:</i></b>  These terms have not been defined in the draft Code.		The term "Commission and piece rate worker" has been omitted to be defined.
2.87			The term "Monthly income means" has been omitted to be defined.
2.96	<b><i>Part-time worker:</i></b>  Definition is not clear. Some words are, obviously, missing between the word 'government' and the phrase 'of work'.		The omission should be supplied and the definition made complete and clear.

I have to state that the public is denied the opportunity to understand the mind of the framers of this Code, in the absence of these definitions in complete shape.

I, therefore, request you to kindly set right these apparent omissions and re-publish the Code, giving further time of 30 days from that date of publication.
